Catholic Women's League CIO is a group of Catholic women of all ages working together and undertaking charitable works of all kinds. We serve our parishes whenever the need arises, socialising together and praying together. We are a positive voice for the church and a group where love and friendship can be found.

The League was founded in 1906 for the education of women and has evolved over the years continuing to focus on charity work in the local community but also looking at national and international issues.
